PRAVEEN E

ASPIRING CLOUD APPLICATION DEVELOPER

PROFILE

Motivated and enthusiastic beginner aspiring to build a career as a Cloud Application Developer. Familiar with basic cloud computing concepts and popular cloud platforms like AWS and Microsoft Azure. Learning key technologies such as virtual machines, cloud storage, serverless computing, and containerization using Docker. Proficient in programming with Python and Java, and understanding of web development fundamentals. Eager to apply problem-solving skills, learn best practices in cloud application development, and contribute to building simple cloud-based solutions. Passionate about continuous learning, automation, and developing efficient, scalable applications in a cloud environment.
